Clinics use HelplineSOS to allow staff and volunteers to answer non-emergency calls and stop unnecessary high risk visits to health facilities.

**Sign up to get started**

- coronavirusnetwork.org/helpline
- joe@sostento.org

**How it works**

1. Forward your COVID-19 related calls to HelplineSOS technology system
2. Non-identifying caller information is recorded on an automated system
3. Clinic staff and trained volunteers get information in real time for call back
4. Individuals are given information, reassurance and routing to medical providers
